

### **Project Hope Update 9/10/25**

The only real update for Project HOPE-VA is related to funding. We have received our 2025-26 McKinney-Vento funding. This year's allocation is \$2,443,172, an 11% increase over FY24. We are monitoring the budget negotiations in Congress for future funding. Current House and Senate proposals maintain McKinney-Vento as a separate program with level funding (counter to the President's proposal to make it part of a block grant to states). The current House proposal significantly cuts other education programs that support students experiencing homelessness, including Title I, Part A, which is the main funding source for most school divisions.
